WP 0011	Re-Aggregation Messages Via CD	WA	Active

Date Raised	27/04/05	Implementation Date	04/05/05
-------------	----------	---------------------	----------

Change History

Identification of Retail Market Design Baseline Products Impacted

Reason for Working Practice
Due to the size restriction 1MB, Re-Aggregation messages will require transmission by CD rather than Market Message. This working practice formally documents this proposed workaround.

Working Practice
<p>MRSO- Data Aggregation ability to send Re-aggregation messages via the hub is restricted due to the size of these messages which over time is likely to exceed 1MB.</p> <p>MRSO-Data Aggregation will issue pass-keys to the designated contacts in each Supplier Organisation, SSA, TSO and Generators by e-mail. The Re-aggregation messages will be encrypted using these pass keys and burnt onto CD in their current xml format & posted to Suppliers on a monthly basis.</p>
