Apr/14/01	In relation to AOB item 2 below - Suppliers to consider the timeline needed to implement any changes to their systems and to feedback to CDA as soon as possible.		Suppliers	28/05/2014	Open

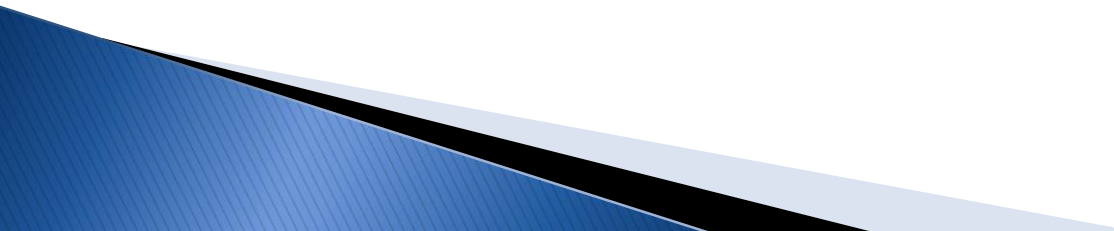

# Market Design Queries

- No Market Design Queries

# Market Impacting Defects

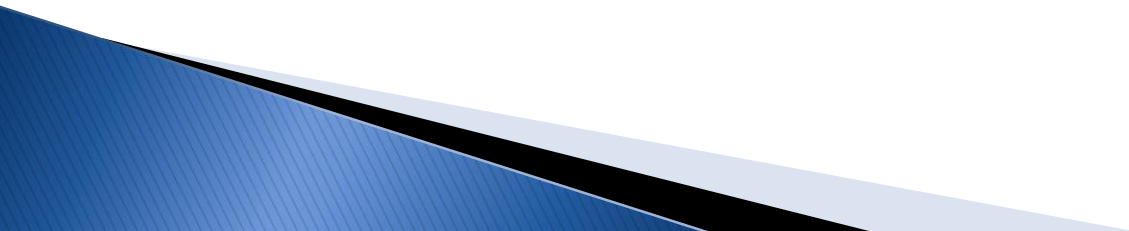

Open Defect		Comments
1	There is an issue in SAP PI where it is not including the A2 and A3 address types resulting in A2 and A3 address types not being sent on 105 MM.	Correction for this is being investigated.
2	When 010 (CoS) with a re-energisation has been requested and a quarterly read cycle is due and if the re-energisation completes on the same date as the quarterly read then a 307 MM is being issued incorrectly to the losing Supplier.	Correction for this is being investigated.
3	A Non Conformance has been identified with the Market Design in relation to the 260 Market Message - Please refer to CRID 178 - DR 1141 for details	Refer to CRID 178 DR 1143
4	A defect has been raised where there is a new connection process and there is a line alteration with an NIE initiated meter change. The Market Participant Business Reference field is populated on the 331 MM, this field should be left blank	Currently being investigated

# NI Non-Schema Release 2014

- **TCC field Validation on 017**
  - **NI Market Website Enhancements**
  - **122 MM Implementation**
  - **Send 131X Market Message with C010 to the Supplier**
- 

# 122 MM Ability Testing

# Data Quality Issues

# AOB
