13/10/2010	v2.0	Converted to MCR - No changes from associated Discussion Request	Final

PART 1 DETAIL OF DISCUSSION REQUEST/MARKET CHANGE REQUEST:

Requesting Organisation(s)	NIE	Originating Jurisdiction	NI
Contact name	Joan-Edel Smith		
Date Request Raised	15/09/2010	Originating Request	-

Detail of Request
Reason for Request

This Discussion Request proposes that NIE will not adopt a cleansed address indicator process for Meter Point Address maintenance when a Change to Customer details market message 013 is received. The adoption of this process would have meant that once a cleansed address indicator had been set against a site then any subsequent Meter Point Address changes would have been rejected automatically. The Discussion Request therefore proposes to remove the cleansed address indicator and the automatic rejection of Meter Point Address changes on an 013. Instead, NIE will review all Meter Point Address change requests on an 013. Suppliers may still have Meter Point Address changes rejected but only after review by NIE. NIE retains the right to accept or reject any changes to the Meter Point address.

Further harmonisation

Proposed Solution

Currently following completion of the CoS the New Supplier may cancel the uncompleted fieldwork of the Old Supplier - this will no longer be relevant or possible. NIE will hold the CoS and make contact with the Old Supplier to cancel or complete their existing outstanding fieldwork.

Classification of Request

Harmonisation Impacting		X	Harmonisation Baseline Version No.			TBD
NI Specific			Operational		HWG Transfer Date	TBD

Scope of Request

Design Documentation	Business Process	Market & MP Systems	Market Gateway (Hub)	MPCC/ EMMA	Schema	Web Forms	Extranet
