| PART 1 DETAIL OF DISCUSSION REQUEST/MARKET CHANGE REQUEST: | | | | | | | | | | | | | |
| Requesting Organisation(s) | | NIE | | | | Originating Jurisdiction | | NI | | | | | |
| Contact name | | Joan-Edel Smith | | | | | | | | | | | |
| Date Request Raised | | 01/04/2011 | | | | Originating Request | | | | | | | |
| Detail of Request | | | | | | | | | | | | | |
| Reason for Request | | | | | | | | | | | | | |
| This Discussion Request proposes that the concept of implied change of usage be removed from the 030 market message. The rationale for this change is to further harmonise the NI and RoI processes for change of use and consistency with the proposed Discussion Request DR 1057 "Removal of Usage Type on 010". | | | | | | | | | | | | | |
| Proposed Solution | | | | | | | | | | | | | |
| Current requirements allow for an implied change of usage on a 030 market message where the requested metering clearly identifies a change from Residential to Commercial. NIE propose to remove this and reject any metering change requested on the 030 that implies a change of usage. Where the customer's existing metering supports both the current and requested Usage Type, the Supplier can send the 013 market message to request the change of usage, followed by the 030 to complete the required meter works. Where the customer's existing metering does not support both the current and requested Usage Type, the 013 will be rejected, using existing rejection reason code ICU "Invalid change of customer usage". The customer should be advised to apply directly to NIE for an increased/decreased connection and NIE will manage the change of usage and required meter works. | | | | | | | | | | | | | |
