Detail of Request
<p><b>Reason for Request</b></p> <p>A small number of large Suppliers are sending in multiple COLE 016MM for single MPRNs.</p> <p>The evidence is that multiple 016MM come into the Central Market System from certain Suppliers, one 016 directly after the other.</p> <p>This has been causing internal processing problems, and needs manual intervention by ESNB. This ties up ESNB resources.</p>

Proposed Solution
<p>Suppliers are requested to ensure that they submit only one active COLE 016MM for an MPRN.</p> <p>This means that once an 016M for an MPRN is submitted then the Supplier should ensure no further 016MM is submitted for that same MPRN and for the same 'effective from date' that appears on the 116MM until either a 116 MM (see MPD25) and its associated 300MM (see MPD14) , or else a 116R MM (see MPD25) has been received.</p> <p>There is an exception where the Supplier has already submitted a valid future dated 016MM, in which case the existing Market rules remain in place.</p> <p>No IT change is being proposed rather the Supplementary Information in MPD25 and also in MPD14 is requested to be changed to record this as a rule.</p>
