

# **ESB Networks Market Release**

**Meeting of the IGG, 23<sup>rd</sup> April 2010**

## June 2010

MCR0169 Addition of Vulnerable customer flag to 102 MM ver 2.0

**ESBN will have, during April, issued a letter to each customer with a Priority Support Connection**

**The MPRNs were based on information that is held in the Central Market System, as communicated to the relevant Suppliers**

**The template for this letter was circulated in advance to all relevant Suppliers**

MCR0171 Proposal to add Acceptance/Completion/Cancellation message to Meter Works design ver 2.0 - Non-Schema affecting report

**ESBN test with Suppliers for the sending/receipt of an email containing a sample attachment : these are planned to be carried out over the next two/three weeks , and will be coordinated through RMDS**

MCR0162 SOLR Process ver 2.0 [remainder]

MCR0164 Include Meter Multiplier on Extranet ver 1.0

## August 2010

MCR0161 Increase the threshold for connection agreement ver 1.1  
**Implementation is planned for the first week in August, exact date tba.**

## Content

- Shortlisted MCRs - from RMDS
- Input from Market Participants at the last IGG and also the HWG

## Timeline

from previous meetings of the IGG:

- Commitment for a November release
- Market Participants request the provision of schema changes earlier than the prior agreement of 3 months before go-live
- Not December
- Not at 'month end' i.e. Market Participant preference is for a mid-month release
- Not coinciding with planned upgrades to NI electricity schema
- Not coinciding with planned upgrades to the schemas in the Gas markets , in either jurisdiction

**Comment:** the relative merit of each point would have to be considered on a case-by-case basis for future releases

Proposed upgrade to the Central Market Systems to schema Version 8.1/ MPCC Release 17.0

## Timeline

- The third weekend in November, Friday 19<sup>th</sup> to Sunday 21<sup>st</sup> November 2010
- with the formal release of the xml Schema in week ending 23<sup>rd</sup> July 2010

## Content

MCR	Title	Version
MCR0033	<i>Sending 306 for all NQH De-energisations</i>	1.0
MCR0034	<i>Sending 307 for all NQH Re-energisations</i>	1.0
MCR0081	<i>Proposal to change Suppliers Extranet so that it shows only billable devices</i>	2.0
MCR0177	<i>DG4 DUoS Tariff for Local Authority Public Lighting</i>	1.0

## Changes to XML Schema

- One MCR requires a changes to the Schema. This is MCR0177.
- The change requires the addition of DG4 to the list of valid code values for the field DUOS\_Group

**Thank You**
