Detail of Request

Reason for Request

Background

To allow Market Participants communicate using the full Irish character set, It is proposed to modify the XML schema to allow all MPs to send and receive the following:

á, é, í, ó, ú, Á, É, Í, Ó, Ú

This will involve an amendment to the definition of the Market Free text type character set.

(Update as of 28.10.15) Participants noted at the IGG on 02.09.15 that when assessing the MCR for implementation, interdependencies between Gas and Electricity Markets will also need to be considered as well as the implications of implementing this MCR in one jurisdiction and perhaps not in the other.

Proposed Solution

At present the market messaging solution being used in the Retail Electricity market does not allow for the use of Irish Language characters (i.e. the use of the 'fada').
