ESBN Presentation to the IGG

John Bracken

4th May 2016

Prepayment Meter Stats

PAYG METER INSTALLATION WAITING TIMES per ESBN Planner Group as at

DATE: 25/04/2016

Planner Group	Weeks Waiting
Arklow	0
Athlone	4
Ballina	2
Bandon	0
Castlebar	0
Cavan	2
Clonmel	1
Cork	2
Drogheda	2
Dublin Central	3
Dublin North	2
Dublin South	2
Dundalk	2
Dunmanway	1
Ennis	1
Enniscorthy	1
Fermoy	2
Galway	3
Kilkenny	0
Killarney	0
Killybegs	0
Letterkenny	1
Limerick	2
Longford	1
Mullingar	1
Newcastle West	0
Portlaoise	2
Roscrea	2
Sligo	2
Tipperary	2
Tralee	2
Tuam	1
Tullamore	2
Waterford	3

Keypad Meter Stats:

Total installed up to 22 April 2016 @ 77,438

Total installed in 2016 YTD (22 Apr) @ 2,261

The above indicates how many weeks on average a customer is waiting to have a PAYG meter installed in each of the respective ESBN Planner Groups

ESB Networks I-SEM Programme

Presentation to the IGG

Theresa O'Neill, James Long

4th May 2016

- CER's Retail Market team asked ESB Networks in January 2015 to assess the impact of the I-SEM on the Retail Market in Ireland.
- The RAs and the I-SEM Project team have put in place extensive communications , consultations, working groups on sundry I-SEM topics .
- They have invited Suppliers, Generators, other Participants including Meter Data Providers etc. to attend and become involved. No doubt your organisation is represented at all relevant forums and is aware of the I-SEM programme of work and its timelines.
- Whilst the SEM is to undergo a radical transformation arising from changes to European legislation designed to create a single wholesale electricity market across Europe, the intention of the RA's I-SEM team is that there would be minimum impact for the Retail Market and for Meter Data Providers arising from the I-SEM.

ESB Networks I-SEM Programme - Introduction

- ESB Networks is one of the four Meter Data Providers represented at the I-SEM Metering Working Group and through that we are considering the impacts of the I-SEM.
- Currently there are some queries which are being worked through in that forum and are expected to be bottomed out during May. After this we will be in a position to draft any necessary Retail Market Discussion Requests and bring them to the next IGG/ReMCoWG.
- This is our current understanding of sundry key items:
 - At this time, No Changes are indicated to the Harmonised Retail Market Schema or the COBL
 - D+1,D+4,M+4,M+13 Settlements will operate for ESN for the I-SEM i.e. No Change to frequency
 - Need to concurrently operate the SEM and the I-SEM until the Re-Settlement of the SEM has completed
 - No Meter Data will set the price in the I-SEM and so I-SEM will not need the Price-Effecting category
 - I-SEM Market Trials will run from June-Sept 2017
 - The Go-Live date for the I-SEM is 1st Oct 2017

Thank You
