

Market Change Request 1175			Provide MP Bus Ref for Reading		
<b>Status</b>	Issued to Market	<b>Priority</b>	High	<b>Status Date</b>	27/04/2016

Date	Version	Reason for Change	Version Status
27/04/2016	2.0	Issued to Market	Final

Part 1 DETAIL OF DISCUSSION REQUEST / MARKET CHANGE REQUEST			
<b>Requesting Organisation(s)</b>	RMDS	<b>Originating Jurisdiction</b>	RoI
<b>Request Originator Name</b>	Mark Speers		
<b>Date Raised</b>	02/03/2016		

Classification of Request			
<b>Jurisdictional Applicability</b>	RoI	<b>Jurisdictional Implementation</b>	RoI Specific
<b>If jurisdictional implementation is for one jurisdiction only – is the other jurisdiction required to effect any changes?</b>	No	<b>Co-Ordinated Baseline Version No.</b>	TBC
<b>Change Type</b>	Non-Schema Impacting		

Detail of Request
<b>Reason for Request</b>
To clarify and update the process where by a supplier sent customer read is submitted (in the period between when a meter reader card is left at the premise for no access to the point an estimate is created) but the 300 read that is returned does not reference the 210. It arrives as a networks provided 300 read. The 210 process is left open on the suppliers side. The 300 can have a CU read on it but no MPBusRef. With increased availability of options suppliers can get reads from customers e.g. online apps, the process behind to support this should be tightened up. What is sent references what we get back.

Proposed Solution
When a 210 read is sent and the read is validated, the 300 back to the supplier should always have the Suppliers BusRef included on it, at all times
