

Code Change Request 015		New RM Code	
CoBLCR Status	Issued	Status Date	06/11/2018

Date	Version	Reason for Change	Version Status
25/10/2018	1.0	Issued to Market	Final

Part 1 DETAIL OF CoBL CHANGE REQUEST			
Requesting Organisation(s)	ESB Networks	Originating Jurisdiction	ROI
Request Originator Name	Martin Hand		
Date Request Raised	19/10/2018		
Date of Forum where discussed	13/11/2018		

Classification of CoBLCR		
CoBLCR Type	Code Change - Non Enumerated	
Jurisdictional Applicability	ROI	Comments
Co-ordinated Baseline Documentation impacted	Yes	
Co-ordinated Baseline	Data Definitions <input type="checkbox"/> Data Codes <input checked="" type="checkbox"/> ROI Market Message Guide <input type="checkbox"/> NI Market Message. Guide <input type="checkbox"/>	
ROI – Market Baseline docs	Market Message <input checked="" type="checkbox"/> Message Specific Info <input type="checkbox"/> MPDs <input type="checkbox"/> Briefing Documents <input type="checkbox"/> Guidance Documents <input type="checkbox"/>	
NI - Market Baseline Doc Impacted	NI Market Procedures <input type="checkbox"/> NI Market Guides <input type="checkbox"/>	

Details of CoBL Change Request

Background Reason for Change

ESBN SMART Project are adding a new RM code in the next scheduled Market Release v12 in April 2019 in advance of the planned roll out of SMART meters in 2019.

No action is required on behalf of suppliers. This is to be treated in the same way as any new RM code routinely added as per normal market operation.

Description of Change

Device Category: RM106
Description: Smart GPRS 1PH WC 5(100) AMPS

Appendix A

CoBLCR Criteria

This form invokes an accelerated change process to introduce new code values for non-enumerated (non schema validated) codes/fields that already exist in the retail market design OR corrections or amendments to the CoBL document only (i.e. non conformances that are limited to non technical changes). Coded value changes will be implemented outside of a market release by the DSOs.

Changes to the CoBL will be effected through a Co-ordinated Minor Market Release (Co-MMR) i.e. documentation change to the baseline only.

Code Changes:

To be eligible for this process, a code field must:

- *already exist in the retail market design:*
 - *Be in the current version of the market design*
 - *Be in the current version of the XML schema*
- *Be a non-enumerated code:*
 - *The current version of the XML schema does not list the permissible values of the code i.e. schema validation is on length, type and/or format only not on actual code.*
 - *The CoBL contains the list of values for informational purposes.*
 - *Market participants may or may not process the code in their back end systems in order to meet their licence and/or assurance obligations.*
 - *If the code is used, the CoBLCR forms the communication mechanism for informing Market Participants of changes or additions to codes within the CoBL.*

Non Conformances

- *A CoBL non conformance can be defined as a textual error within the CoBL documentation. It will NOT involve any change to the XML schema.*
- *Examples of a CoBL Non Conformance include but are not limited to:*
 1. *Data item omissions from the data item tab*
 2. *Inconsistent representation of data items across tabs*
 3. *Missing Attributes/information from data items.*
 4. *Cosmetic inaccuracies (spelling, grammar etc)*
