# CoBL v5.2 Release Notes

Smart Metering Programme

30<sup>th</sup> August 2019

# Purpose

- This slide pack outlines the amendments made to the CoBL v5.2
- The following CoBL (Co-ordinated Baseline) components have had corrections made and are identified within this pack:
  - Market Messages
  - Data Codes
- There were also a number of cosmetic and functional modifications made to the CoBL v5.2 which have also been outlined in this document.

## 1. MM010 - Registration Request

- The Business Name **Meter Configuration Code (Required)** was incorrectly used in the Schema Name column. **RegistrationMeterConfigurationCode** has now been updated on CoBL v5.2.
- The order of the new **Smart Data Services** segment within the Market Message has been updated on CoBL v5.2.

## 2. MM013 - Customer Details Change

- The Business Name **Meter Configuration Code (Required)** was incorrectly used in the Schema Name column. **RegistrationMeterConfigurationCode** has now been updated on CoBL v5.2.
- The order of the new **Smart Data Services** segment within the Market Message has been updated on CoBL v5.2.

## 3. MM016 - Change Of Legal Entity

- The Business Name **Meter Configuration Code (Required)** was incorrectly used in the Schema Name column. **RegistrationMeterConfigurationCode** has now been updated on CoBL v5.2.
- The order of the new **Smart Data Services** segment within the Market Message has been updated on CoBL v5.2.

4. MM017 - Meter Point Status Change Request
  - The Business Name **Meter Configuration Code (Required)** was incorrectly used in the Schema Name column. **RegistrationMeterConfigurationCode** has now been updated on CoBL v5.2.
  
5. MM101 - New Connection Registration Acceptance
  - The Business Name **Meter Configuration Code (Required)** was incorrectly used in the Schema Name column. **RegistrationMeterConfigurationCode** has now been updated on CoBL v5.2.
  - The order of the new Data Items CommsTechnicallyFeasible, DUoSBillingFrequencyCode and DUOSBillingCycle within the Market Message have been updated on CoBL v5.2.
  
6. MM101P - New Connection Provisional Acceptance
  - The Business Name **Meter Configuration Code (Required)** was incorrectly used in the Schema Name column. **RegistrationMeterConfigurationCode** has now been updated on CoBL v5.2.
  - The order of the new Data Items CommsTechnicallyFeasible, SmartNonParticipationCode, DUoSBillingFrequencyCode and DUOSBillingCycle within the Market Message have been updated on CoBL v5.2.

## 7. MM102 - Change of Supply Registration Acceptance

- The Business Name **Meter Configuration Code (Required)** was incorrectly used in the Schema Name column. **RegistrationMeterConfigurationCode** has now been updated on CoBL v5.2.
- Duplicate value of **RegistrationMeterConfigurationCode** has been removed from CoBL v5.2.
- The order of the new Data Items DUoSBillingFrequencyCode and DUOSBillingCycle within the Market Message have been updated on CoBL v5.2.

## 8. MM102P - Change of Supplier Provisional Acceptance

- The Business Name **Meter Configuration Code (Required)** was incorrectly used in the Schema Name column. **RegistrationMeterConfigurationCode** has now been updated on CoBL v5.2.
- Duplicate values of MeterPointStatusCode, MeterConfigurationCode and RegistrationMeterConfigurationCode have been removed from CoBL v5.2.
- The order of the new Data Items DUoSBillingFrequencyCode and DUOSBillingCycle within the Market Message have been updated on CoBL v5.2.

## 9. MM105 - Change of Supplier Confirmation

- The Business Name **Meter Configuration Code (Required)** was incorrectly used in the Schema Name column. **RegistrationMeterConfigurationCode** has now been updated on CoBL v5.2.
- The order of the new Data Items CommsTechnicallyFeasible, DUoSBillingFrequencyCode and DUOSBillingCycle within the Market Message have been updated on CoBL v5.2.

## 10. MM112R - Notification of Objection Rejection

- Duplicate value of **RejectReasonCode** has been removed from CoBL v5.2.

## 11. MM114 - Change of Customer Details Confirmation

- The Business Name **Meter Configuration Code (Required)** was incorrectly used in the Schema Name column. **RegistrationMeterConfigurationCode** has now been updated on CoBL v5.2.
- The order of the new Data Item CommsTechnicallyFeasible within the Market Message has been updated on CoBL v5.2.

## 12. MM131 - Work Status

- Duplicate values of **WorkTypeCode** and **OutcomeReasonCode** have been removed from CoBL v5.2.
