Retail Market Design Update

Lindsay Sharpe, RMDS

- Following System Separation on the 26th September 2021, RMDS is seeking approval for the following updated governance documents for the ROI market:
 - Governance Arrangements for the IGG
 - Retail Market Design Change Control Process
 - Retail Market Release Prioritisation Process
- The CoBL will also be re-named “Market Schema Guide”, it will remain at v5.0 and no other changes will be made to the document.

- As part of the CRU Information Paper on Phase 2 of the NSMP, CRU has asked RMDS to establish a Technical Working Group which will focus on the technical implementation of market changes for the V14.00.00 market release, planned for September 2023.
- Draft Terms of Reference for this Technical Working Group have been issued out to members of the current MCR workshops. Market Participants are asked to provide feedback to RMDS Manager, Lindsay Sharpe lindsay.sharpe@esb.ie, by the 8th October 2021.

DRs & MCRs

MCR1214 – Interim Metering Responsibilities for Battery Storage

MCR1214	Details		
Date Raised	06/08/2021	Date last Approved	
Requesting Organisation	MRSO	Jurisdictional Implementation	ROI
Schema Impacting	N	Jurisdictional Applicability	ROI
Latest Version	V2.0		
Change Summary	<p>In the Retail Market there are currently no policies or mechanism to identify and treat Battery Storage units differently to any other type of generator.</p> <p>Following discussions, EirGrid has agreed, as an interim measure, to act as the Meter Data Provider for Battery Storage Units. EirGrid will poll the DSO connected battery storage sites and provide the import and export data to SEMO in a single data stream under a Generator Unit ID, as required by SEMO.</p>		
Classification	<ul style="list-style-type: none"> At Today's Meeting; For Approval as MCR 		

Re-versioned MCR1210 – Test Webservice

MCR1210	Details		
Date Raised	21/09/2020	Date last Approved	27/04/2021
Requesting Organisation	Bord Gais Energy	Jurisdictional Implementation	ROI
Schema Impacting	N	Jurisdictional Applicability	ROI
Latest Version	V2.0		
Change Summary	MCR1210 has been re-versioned to provide clarification on process for requesting access to the Test Webservice.		
Classification	• At Today's Meeting; For Approval as a re-versioned MCR		

Re-versioned MCR1209 – Annual Consumption for HH Sites

MCR1209	Details		
Date Raised	28/07/2020	Date last Approved	23/06/2021
Requesting Organisation	Iberdrola	Jurisdictional Implementation	ROI
Schema Impacting	N	Jurisdictional Applicability	ROI
Latest Version	V4.0		
Change Summary	<p>Re-versioned MCR provides clarification on delivery mechanisms.</p> <p>Enduring solution where the field ‘Estimated Consumption’ will be added to the 105MM. In an interim solution, Market Participants will be provided with a daily file using a temporary SFTS facility.</p> <p>ESBN will seek guidance from Market Participants as to whether the interim solution is required or not. If the interim solution is not required then ESBN will remove reference to the interim delivery mechanism from the MCR and reversion once again.</p>		
Classification	<ul style="list-style-type: none"> At Today’s Meeting; For Approval as a re-versioned MCR 		

Re-versioned MCR1193 – Tibco Reconciliation file to include list of TxRefNums

MCR1193	Details		
Date Raised	07/06/2018	Date last Approved	13/11/2018
Requesting Organisation	SSE	Jurisdictional Implementation	ROI
Schema Impacting	N	Jurisdictional Applicability	ROI
Latest Version	V3.0		
Change Summary	Amendment to proposed solution following consultation with the original requester, proposed changes from a non-schema solution (daily file sent by email) to a schema based solution, through the 602MM.		
Classification	<ul style="list-style-type: none"> At Today's Meeting; For Approval as a re-versioned MCR 		

Re-versioned MCR1189 – Additional Code in the 017MM to select a De-En with a Service Removal

MCR1189	Details		
Date Raised	22/08/2018	Date last Approved	16/01/2019
Requesting Organisation	ESBN	Jurisdictional Implementation	ROI
Schema Impacting	Y	Jurisdictional Applicability	ROI
Latest Version	V3.0.		
Change Summary	Re-versioned MCR details amendment and additions to Meter Point Status Reason Code and Work Type Codes and consequential clarifications as a result of these changes.		
Classification	<ul style="list-style-type: none"> At Today's Meeting; For Approval as a re-versioned MCR 		

DR1215	Details		
Date Raised	03/09/2021	Date last Approved	
Requesting Organisation	SSE/Energia/BGE	Jurisdictional Implementation	ROI
Schema Impacting	TBC	Jurisdictional Applicability	ROI
Latest Version	V1.0		
Change Summary	<p>From January 2022, it is proposed to move to a network led approach for the exchange of MCC02 (day/night) meters. ESNB propose to exchange a day/night MCC02 meter with a smart meter, set at MCC16 (Day, Night and Peak) on commissioning.</p> <p>The proposal in this DR is for ESNB to manage the data storage and translation from MCC16 to MCC02 so that suppliers receive data from ESNB post meter exchange in the same format as pre-exchange.</p> <p>Initial impact assessments have been issued out to market on behalf of ESNB, BGE & SSE Airtricity.</p>		
Classification	<ul style="list-style-type: none"> At Today's Meeting; For Approval as DR
